Saving Institutions.

Savings Banks are excellent institutions in any country, when properly conducted, and governed by stringent statutory laws protecting the interests of its depositors. In almost every county in the Eastern States they have Savings Banks in successful operation, and in every instance, their economical and beneficial influence is seen in the increased frugality and industry of the laboring classes.

Many a now wealthy citizen of our country, can date the commencement of his colossal fortune to the day when he made, as a poor young man, his first deposit of a few dollars in a Savings Bank. There are now at the East several of these institutions where deposits can be made in sums as low as a dime—and therefore called "Dime Savings Banks"—whose deposits in the aggregate count up many millions of dollars.

The total amount of deposits in the Savings Institutions of the New England States and New York to-day, are far in excess of the deposits of all the other banking institutions in the balance of the States.

The statutory laws of the States are so stringent in regard to the management of these banks that there is no possibility of the depositors loosing their hard earned money. That is as it should be everywhere; no institutions of the kind should be permitted to exist, whose getters-up are not held to a strict accountability for the manner in which they manage the funds entrusted to their care, and from which, the depositors can, at will, withdraw their deposits without let or hinderance. The legislators of our country have, for obvious reasons, bestowed unusual care in framing laws governing this class of banking institutions. It is well known and generally understood, that the larger portion of their depositors are composed of a class of people, who have little or no knowledge of banking operations, and, as a consequence, more liable to be duped and victimized by designing, specious men.

We have often wondered that no effort has been made to establish a Savings Bank here in our city; judging by the experience of other places, we cannot see why it should not prove a success, always providing, that the statutory laws governing its operation, should be so framed as to leave no loop hole for its managers to escape punishment, in case of a misapplication of its funds.

Let there be no limit fixed as to the smallness of sums received, and many a youngster will open an account with it, and acquire an economical saving habit that will last him for the balance of his days, and very likely lay the foundation of a fortune. An institution properly started, with a class of men for its managers who would command the confidence of the public, could, in the natural course of things, do a large business not only with our citizens but also with the people of the extensive country surrounding us. We hope to see some action taken in the matter by our leading business men.

QUI VIVE.—Our Montana exchanges contain accounts of a large quantity of bogus gold dust that has been palmed off on the unsuspecting citizens of that Territory. This being a regular thoroughfare for the travel from Montana it may not be out of the way to apprise our merchants of the circulation of this bogus stuff that they may be on their guard. One of the supposed principal operators has been arrested. The spurious dust is said to be very hard to detect, and is calculated to deceive the most expert, more especially if mixed with a good article of dust. It is composed of copper, galvanized; is of a dull golden color, and resists the action of acids unless first cut in pieces.

From the West.

[From the Reese River Reveille.]

San Francisco, October 22.

It was rumored on the street yesterday afternoon that A. M. Chappelle, a well known real estate dealer and capitalist had committed suicide, and it was thought he was the person who was seen to jump from the ferry boat Washoe, Saturday evening while she was on her way to Oakland. Facts have been developed since that evening which indicate that person to have been Mr. Chappelle. He started for Oakland about 1 o'clock. At his departure from home he kissed his wife affectionately and bid her adieu. He then went to the office of G. T. Knox and called him aside. After a moment's conversation he remarked—"Well, George, I am going over; God bless you; good-by" At Oakland he wrote a note to Mr Knox, which he sealed and left at Bamber's express office. He then came back, did not go home, but started for Oakland again on the 6 P. M. boat. The letter is to be withheld from publication by Mr. Knox till the remains shall have been recovered and an inquest held. In the letter he announced his full intention to commit suicide by drowning. Last year he held the office of Vice President of the Society of California Pioneers. He leaves a wife, but no children. His death has created a profound sensation among a large circle of friends and acquaintances

A cold blooded murder was committed at Oakland this morning, the victim of which was police officer Richardson. It appears that a negro, whose name is given as Thomas, had a difficulty with some man about a lot of land, and a warrant was issued for his arrest. It was placed in Richardson's hands, and this morning he proceeded to the negro's house to arrest him. As he opened the door the negro fired at him. The ball struck Richardson in the right side and passed entirely through his body. He fell backwards and instantly expired. The murder caused great excitement in the community, where Richardson was universally respected. He leaves a wife and three children at Oakland. A large and excited crowd collected and would have lynched the negro but for the promptness of the officer who had him in charge. The prisoner was taken to San Leandro

This morning the body of a man was found in the mud and water near the corner of Fifth and Brannan street and identified as that of Christopher Conrad.

The body of a man floated ashore at Lime Point this morning and was buried in that vicinity. Coroner Harris has received a description of the remains. Deceased appears about thirty years of age. The body had probably been in the water ten or twelve days, and was much disfigured.

The Coroner's jury in the case of the little boy Charles Henry Held, killed Saturday by being run over by one of the omnibus railroad cars, acquit the driver of all blame.

San Francisco, Oct. 23.

The committee on the practicability of communication with Utah and Arizona, by way of the Colorado River, made a highly favorable report to the Chamber of Commerce yesterday. After considering the matter thoroughly, they express the opinion that the merchants of San Francisco should immediately proceed to open the navigation of the Colorado River and secure the traffic of Utah and adjoining territories.

Captain John McComb, last night, was elected Lieutenant Colonel of the 2d regiment of California National Guards.

The lot fronting on Market street, below Montgomery, sixty-one feet eight inches by fifty feet front on Sutter, sold for $120,000, yesterday.

Legal tenders 70@70¼.

From Montana.

The *Post* says fruit is coming in from Utah in considerable quantities, several wagon loads having arrived in Virginia within the last few days. Wholesale prices, in gold, by freighters here—grapes, per pound, 75c@$1; pears, 50c; apples, 30@40c. Retail prices, in greenbacks—apples, per pound, 60@70cts; grapes $1.50; pears, $1; peaches, $1.50. When the perishable nature of the articles and the difference between gold and greenbacks is considered, the advance asked by freighters and retailers is not excessive. One train heavily laden came through from Salt Lake City in 17 days. Peaches have to be brought by express.

There are two petitions in circulation in Helena. The first is a petition to the General Government for an appropriation of $150,000 for the purpose of building a wagon road from Horse Plains to Cabinet Landing on the Pen d'Oreille River, in this Territory. The other is for increased service on the Northern Overland Mail route.

Monatua Lodge No. 1, I. O. O. F., were presented with a magnificent quarto edition of the Holy Scriptures. The presentation was made by Messrs. Hoyt and Jeffries, two of the members of the Lodge, and the occasion was one which will long be remembered by the participants.

SUPREME COURT.—The Territorial Supreme Court met again on Saturday, the 26th, at 10 A.M., to render decisions in the several cases submitted at its last session. Below we give a summary of the cases and the decisions rendered:

1st. Ruth vs Long; judgment of 3d District Court in favor of Ruth for $500, affirmed. Assistant Justice Drake delivering the opinion of the Court.

2d. White vs Heath; judgment of 3d District Court in favor of White for $400, affirmed Justice Drake and Chief Justice Titus concurring and rendering the opinion of the Court; Justice McCurdy dissenting.

3d. Bodenburg & Kahn vs B. H Young; judgment of 3d District Court in favor of plaintiffs for $2,700, affirmed.

4th G. B. Rickers vs. McBride et. al.; judgment for plaintiff for $129, affirmed.

5th. Romanes vs. R T. Burton, Sheriff; habeas corpus, application for release of plaintiff refused, and prisoner held to await the requisition of the Governor of Dakota on charge of murder. Chief Justice Titus delivered the opinion of the Court, Judge Drake concurring and Judge McCurdy dissenting.

6th. Cunningham vs. Thatcher & Robinson; judgment of 3d District Court reversed and judgment of Probate Court affirmed. Judge Drake and Chief Justice Titus concurring, delivered the opinion of the Court; Judge McCurdy dissenting.

7th. People vs. Wm. Woolsey, appela from 3d District Court; judgment of District Court quashing, the indictment affirmed.

The Court adjourned to Monday, November 25.

THAT'LL DO.—A returned missionary who has had a glance at London, Liverpool, Norway, Denmark, etc., besides traversing the unpopulated portions of America, said yesterday that this drill was a great thing. "When the Mormons built that wall around the city it was heralded from land to land. The nations of the earth looked upon us as a great and mighty people. This drill is another evidence of the greatness of this people, and when its magnitude reaches foreign lands it will be the sensation of the day, and nations of the earth will be terrified to hear the progress of this people." This is about the substance of this missionary's preaching. Why, where's that little insignificant Uncle Samuel? Has somebody got him in his vest pocket? We have no doubt but that there were dupes who believed the discourse. That returned "mish" had better bag his head, for fear of somebody taking it and running it into candle sticks.

VULGAR LANGUAGE.—Under the head of "Police reports," the San Francisco *Alta* of the 19th has the following: "F. Maynard, for using vulgar language, was deemed guilty and fined $25." What a revenue might be raised if we had a law for the punishment of obscene language in force here. Monday would be a busy day of the week for any judge having cognizance of such offenses in dealing out justice to offenders of the previous day; and no single case would fail for want of witnesses, as the offense is usually committed in the presence of large audiences.

WHEW! IT'S ALL IN MY EYE!—So we heard a little girl say yesterday, as she disappeared in a whirlwind of dust at the corner of East Temple and Second streets. The last we saw of the poor little thing she was headed or tailed for the Jordon. We could not exactly say which, for the dust was all "in our eye" just then.

NO TELEGRAPH.—The wires are being kept busy doing nothing.

TITHING.—As we are the semi-official organ of Bro. Brigham & Co., it becomes our duty to inform the brethren and sisters that their tithing is now due, and that the faithful are expected to be prompt in the discharge of that most important feature in the ritual of the Mormon Church. Step up to the Captain's office and settle.

SWEETWATER.—We are reliably informed that arrangements have been perfected for starting, (at as early a day in the coming spring as possible), a daily or tri-weekly paper at the Sweetwater mines. The printing and mining departments of the paper will be under the management of gentlemen of practiced knowledge and experience.

IF.—O. J. Goldrick, writing from Fort Union, New Mexico, to the Denver *News* says: "Were the eye and the atmosphere able, while standing on the tip-top of the Raton, we could take a clear view of the wharf of St. Louis, or wink at the wives of old Brigham at Salt Lake."

THAT DRILL.—To-day that big drill commenced. There must be a a crowd of troops down near the river Jordan. Two privates, armed and equipped as the law demands, and about fifty officers passed by our office this forenoon.

ARRIVED.—By telegram to a gentleman of this city, we learn that P. L Shoaff and family arrived in San Francisco from the East on Friday last and intends leaving for Salt Lake sometime this week.

ON account of that drill we are compelled to issue a half sheet for four days, commencing to-day.

ARRIVALS AT THE REVERE HOUSE.

Oct. 27.—L. M. Cros Wait, Fort Des Moines, Iowa; Thomas J. Swasy, Omaha, Thomas Cotter, Austin; Julius Newbery, Idaho; J. W. McArtery, Virginia; Miss Davis, Miss Lambert, Wm. Greer and lady, Helena; W. D. Mathews, Julesburg; S. G. Morgan, city.

TERRIBLE TRAGEDY.—A dispatch dated Healdsburg, Oct 18th, says a terrible tragedy occurred on election day at Little Lake, Mendocino county, California. It appears that a feud existed for a long time between two families named Coats and Frost. At the election both came together armed, and Coats immediately fired, killing Frost at the first shot. The firing became general between the families. Five of the Coats family were killed and three dangerously wounded. Frost was killed and his son Duncan mortally wounded. Not a word was spoken on either side during the fray.

PROGRESS OF THE CENTRAL PACIFIC RAILROAD.—The Gold Hill *News* says:

A short note from "Railroad Spike," who has just returned from trip over the mountains, informs us that while the Railroad Company do not expect to roll a locomotive on a track over the mountains this year, the company do expect, and have made definite and reliable calculations and arrangements for building 300 miles of railway from Hunter's station, before November, 1868.

THE system of breech-loading firearms renders it necessary for the soldier to carry a double amount of ammunition. Ninety rounds is now the regulation number in the British army.

ANOTHER new daily newspaper has been started in Paris It is printed on a paste formed of confections and can be eaten after it is read. All its news will be well digested, of course.

A Washington auctioneer, disgusted at a dull audience, put up greenbacks; after much coaxing he succeeded in getting $19 99 for a $20, and $4 90 for a $5 bill.

A two-year old grandson of C. D. Grissell, of Salem, Ohio, fell into a well thirty feet deep, with a bottom of solid rock, and came out unharmed, a few days ago.

OUR exchanges overland, which came to hand to-day, were saturated with water, or else one of the drivers was in a hurry.
